

A Group of Grade 5-6 Students from *Santara* Secondary School Visits AISV

On January 12, the fifth grade students got a chance to meet with other students from the school called *Santara*, a Russian school.

During the meeting AISV students and *Santara* school students told each other about their school life. After that, they were divided into groups. In every group there was one AISV student and about 2-3 *Santara* school students. While in groups, students were discussing what they like to do during their free time.

When the meeting was over, Ms. Jolita gave a tour of our school to the guest students. We hope to visit *Santara* school and learn about it in the nearest future.
