

Upper School Campus, Subačiaus g. 41, Vilnius

OVERVIEW

Are you a compassionate and experienced healthcare professional looking to make a difference in an educational setting? We are seeking a qualified and dedicated School Nurse to join our team and ensure the well-being of our students and staff.

WHAT YOU'LL DO (includes but isn't limited to)

The school nurse is responsible for providing first aid and emergency care to students and staff during school hours and after-school activities, ensuring compliance with Lithuanian health regulations and school policies related to communicable diseases. This role involves reviewing medical documentation, advising on student exclusion and return, maintaining and restocking first aid kits across the school, and promoting a safe and healthy environment. The nurse will also train staff to recognize early signs of illness, participate in the development of health-related services and initiatives, and coordinate with external healthcare providers when necessary.

KNOWLEDGE, SKILLS AND ABILITIES

- Valid local license as a registered nurse
- Current certification in CPR and as a Professional Rescuer
- Previous experience as a school nurse is an advantage, especially with children aged 2–18. International school experience is a plus
- Proficiency in both English and Lithuanian
- Strong communication skills with children, parents, and staff members
- Confident computer skills, particularly with MS Office / Google Workspace

WHAT WE OFFER

- 38 hours per week
- Professional training and learning opportunities
- Additional health insurance package
- Free lunch provided by the school
- Monthly salary ranges 2.500 - 2.700 Eur (before taxes)

Start date: August 2025
