

SUMMER CAMP ROBOTICS SPECIALIST

LOWER SCHOOL (AGES 2 - 11)

Lower School Campus, Srovės g. 19, Vilnius, Lithuania

OVERVIEW - PRIMARY PURPOSE OF THE POSITION

We are seeking energetic, curious, and creative instructors to join our Summer 2026 team for elementary-aged students. This fast-paced, hands-on program inspires young learners through robotics, coding, animation, and STEM adventures. Instructors play a vital role in creating a fun, engaging, and safe environment that helps students explore technology and develop problem-solving skills.

EMPLOYMENT TYPE

Employment may be based on an individual tax certificate or a fixed-term employment contract.

- Session 1: June 22 - July 10 (no camp on June 24 & July 6th - national holidays)
- Session 2: August 10 - August 21

This is a professional commitment best suited to individuals who thrive in dynamic, high-energy environments.

KEY RESPONSIBILITIES

- Lead fun and engaging STEM activities, including robotics, coding, and hands-on experiments for elementary students;
- Encourage creativity, exploration, and teamwork through interactive projects;
- Build positive relationships with students;
- Collaborate closely with fellow instructors to deliver a high-quality camp experience.

PROGRAM HIGHLIGHTS

- Morning structured STEM lessons and creative projects;
- Afternoon robotics, coding, and interactive games;
- Outdoor STEM exploration and hands-on challenges;
- Showcases for students' projects at the end of each session.

STUDENT AGE GROUPS

- Ages 5–11
- Counselors lead activities for four different age groups aged 5 to 11.

CANDIDATE REQUIREMENTS

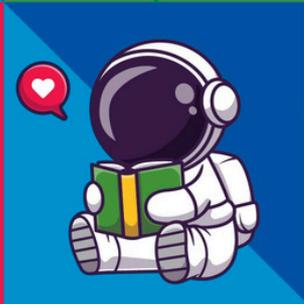

- **Minimum age: 18 years old;**
- Experience or interest in working with elementary-aged children;
- Ability to commit to the full duration of the session;
- Experience or strong interest in STEM fields (robotics, coding, AI, animation);
- Comfortable learning new educational technologies (a plus, not required);
- Excited to bring STEM concepts to life for young learners;
- **Applicants must hold a Lithuanian Residency Permit or Lithuanian Citizenship;**
- Open to students passionate about STEM education and working with young children.

COMPENSATION & BENEFITS

- Competitive compensation;
- Casual, collaborative, and forward-thinking work environment;
- International work experience in a vibrant, multicultural setting;
- On-the-job training and mentorship.
